Specifications are subject to change without notice.

\*1: Document print speeds are the averages of ESAT (Word, Excel, PDF) in Office Category Test for the default simplex mode, ISO/IEC 24734. Photo print speed is based on the default setting using ISO/JIS-SCID N2 on Photo Paper Plus Glossy II and does not take into account data processing time on host computer. Print speed may vary depending on system configuration, interface, software, document complexity, print mode, page coverage, type of paper used etc.

\*2: TWAIN driver (ScanGear) is based on the TWAIN specification V1.9 and requires the Data Source Manager comes with the operating system.

\*3: Optical resolution is a measure of maximum hardware sampling resolution, based on ISO 14473 standard.

\*4: Copy speeds are the average of sFCOT and sESAT, ISO/IEC 29183.

\*4: Copy speeds (ADF) are ESAT of copy in sequence, ISO/IEC24735.

\*4: Copy speed may vary depending on document complexity, copy mode, page coverage, type of paper used etc. and does not take into account warm-up time.

\*5: Operation can only be guaranteed on pre-installed Windows 7 or later.

\*6: Page yields may vary depending on content coverage, print settings, temperature, humidity, and frequency of printing.

\*7: Declared yield value is the estimated value based on Canon individual test method using the ISO/IEC 19752 monochrome chart and continuous printing simulation with the replacement ink bottles after initial setup.

\*8: The Economy mode reduces the ink consumption by lowering the density. More pages can be printed using this mode.

\*9: Declared yield value is in accordance with ISO/IEC 24711, using the ISO/IEC 24712 colour chart. Value obtained by continuous printing.

This product is a monochrome inkjet printer.

Print colour document with optional colour cartridge.

Once the installed colour cartridge is empty, replace with the contact protector or a new colour cartridge.

#### Disclaimers:

- GM4070 is a monochrome printer. Although colour printing can be done by purchasing a compatible colour cartridge, it is recommended to utilise the ink in the installed cartridge as soon as possible.
- To protect the electrical contact and prevent electric shock, when the Contact Protector or colour cartridge is not installed, the printing and scanning does not work.
- GM4070 does not support borderless printing and photo printing even if a colour cartridge is installed.
