Specifications are subject to change without notice.

\*1 Ink droplets can be placed with a pitch of 1/4800 inch or 1/9600 inch at minimum.

\*2 Document print speeds are the averages of ESAT in Office Category Test for the default simple mode, ISO / IEC 24734.

Photo print speed is based on the default setting using ISO / JIS-SCID N2 on Photo Paper Plus Glossy II and does not take into account data processing time on host computer.

Print speed may vary depending on system configuration, interface, software, document complexity, print mode, page coverage, type of paper used, etc.

\*3 Paper types NOT supported for borderless printing are as follows: Envelope, High Resolution Paper, T-Shirt Transfer, Photo Stickers.

\*4 Optical resolution is a measure of maximum hardware sampling resolution, based on ISO 14473 standard. Increasing the scanning resolution will limit the maximum possible scanning area.

\*5 Color document scan speed is measured with ISO / IEC 29183 Target A.

Scan speed indicates the time measured between pressing the scan button of the scanner driver and the on-screen status display turning off.

Scan speed may vary depending on system configuration, interface, software, scan mode settings, document size, etc.

\*6 Document Size: Max. copy area of 203.2 x 277.3mm (with 16.7mm bottom print margin).

\*7 Copy speeds are the average of sFCOT and sESAT, ISO / IEC 29183.

Copy speed may vary depending on document complexity, copy mode, page coverage, type of paper used, etc., and does not take into account warm-up time.

\*8 Declared yield value in accordance with ISO / IEC 24711 (A4) using ISO / IEC 24712 mixed text and graphic document; and ISO / IEC 29102 (for 4x6" size) using ISO / IEC 29103 color photo test images.

\*9 Estimated Supplemental Yield
