

ENVIRONMENTAL CONTRIBUTION

Action for Green

Through technological innovation and improved management efficiency throughout all of its corporate activities, Canon aims to achieve sustainable corporate growth while also realizing a society that promotes both enriched lifestyles and the global environment.

To this end, Canon offers greater value using fewer resources throughout the entire product lifecycle (Produce, Use, Recycle) to achieve highly functional products with minimal environmental burden.

Canon continues to expand these activities with its customers and business partners. Canon will contribute to a future that promotes both enrichment and the environment through technological innovation.

Canon Hongkong Co., Ltd. pursues to become an excellent and sustainable company which supports the environment and society. We commit to meet the needs and expectations of interested parties. In line with the corporate philosophy Kyosei, we are dedicated to continually improve the Quality, Environmental, Health and Safety (QEHS) Management Systems.

Producer Eco-responsibility: Driving Green across Product Life Cycle

Comprehensive Recycling Program

From 2010 to August 2020, Canon HK has cumulatively collected around 5,170 tons end-of-life products and packaging for recycling. The size of recycled item is about 46,800 m³, which is equivalent to the volume of 372 double-deck buses.

Recycling Programs

Remark: The latest Producer Eco-responsibility Ordinance (Cap. 603) on waste electrical and electronic equipment (WEEE) came into effect in August 2018. We comply with the new regulations and ensure the proper disposal of Canon WEEE products.

Cultivate Environmental Awareness in Education Sector

Environmental Education is crucial to the success of sustainability, as an environmentally conscious organization, Canon HK initiated "Ink Cartridge Recycling Program" since 2009 and set up recycle boxes for collecting empty ink cartridges at various locations in Hong Kong.

As of August 2020, Canon HK has placed over 295 recycling boxes in different locations and collected over 217,000 pieces of empty ink cartridges. In 2011, Canon HK has extended the Ink Cartridge Recycling Program to education sector and organized "Canon x McDull Inter-school Ink Cartridge Recycling Competition" to encourage active participation of primary and secondary schools. Since its launch, it has received overwhelming supports from education sector and over 240 local schools participated in this program.
