About this Report

Overview

Canon Hongkong Company Limited (“Canon Hong Kong” or “We”) is pleased to present the Corporate Social Responsibility Report 2022 (the “Report”). This Report aims to disclose our diverse initiatives in environmental, social, and economic aspects to demonstrate Canon Hong Kong’s vision, which contributes to the realization of a sustainable society to our stakeholders. With an eye towards achieving our vision, this year the Report has established a formal structure for the readers to understand Canon Hong Kong’s performance holistically. It includes our management approach and progress areas. During the preparation for the Report content, we have taken the disclosure requirements of the Environmental, Social and Governance Reporting Guide as set out in Appendix 27 to the Rules Governing the Listing of Securities on the United Nations Sustainable Development Goals (“SDGs”) into consideration. To further enhance our sustainability data and performance, the accredited third party has provided the data assurance service for specific environmental data in this Report. Please refer to the section “External Assurance” for more details.

Reporting Scope and Period

This report is prepared to disclose the Canon Hong Kong material sustainability topics from 1st January to 31st December 2022 and, where specified, the latest initiatives after FY2022 as well. Our reporting scopes include but not limited to activities (development, production, and sales) at the operational sites.

Report Approval

This Report was approved by the management of the Canon Hong Kong in April 2023.

PRESIDENT & CEO STATEMENT

As the world emerges from the pandemic, people are focusing increasingly on sustainability and how companies can play more active roles in the environment and the betterment of society. At Canon, we strive to realize our corporate philosophy "Kyosei" which expresses our shared aspiration to create a society in which all people living and working together harmoniously for the common good into the future. We endeavor to integrate sustainability elements into our operation and create a more productive business environment and more abundant lifestyles through our technologies and innovation.

Remote work is not losing momentum in the post-COVID world. We shall continue to expand our offerings on document management, cloud and mobile solution to enhance efficiency for the enterprise. With the reopening of the border, Canon intelligent business solutions help make cross-border operations efficient to support enterprises to seize opportunities in the Greater Bay Area. Our professional digital printing systems also meet growing demand on adaptable eco-friendly production in the region.

Virtual Reality is becoming a new form of entertainment in recent years. Canon launched the MREAL solution for users to enjoy unimaginable and fresh experiences and the EOS VR system to bring immersive three-dimensional content.

To harmonize environmental and ecological economic activity, we have always maximized resource efficiency through technological innovation and improved management efficiency, contributing to a carbon-neutral community and safeguarding natural resources for future generations.

As a good corporate citizen, we work hand in hand with our stakeholders to achieve sustainable development goals, cohering with the concept of the Sustainable Development Goals (SDGs) adopted by the United Nations in 2015. Under the umbrella of "Imaging for Good", Canon Hong Kong contributes to the community by supporting CSR activities through our imaging expertise, including environmental conservation, youth development and caring for vulnerable groups. For our employees, we promote healthy lifestyles that offer optimal well-being and provide trainings to develop their potentials.

Canon Hong Kong is honored to be awarded the InnoESG Prize "GLOBAL ESG IMPACT AWARD" 2022 in recognition of our efforts in generating business models to meet the diverse needs and challenges of enterprises and society while developing a business ecosystem to support sustainable initiatives.

With our life return to normalcy, 2023 will be a year of economic recovery and welcoming new opportunities. Canon is committed to supporting businesses in Hong Kong, Macau and Greater Bay Area and to brightening up people's lives with our innovative business solutions and imaging technologies. Upholding our corporate philosophy "Kyosei", we look forward to realizing a better society with you.

Kazuhiro Ozawa

President & CEO
Canon Hongkong Co., Ltd.

ABOUT CANON

共生 Kyosei

*Living and working together for the
common good*

Corporate Philosophy

Canon's corporate philosophy is Kyosei, which means 'to live and work together for the common good'. This is what Canon does every day with its corporate activities. We understand that our business is supported by the development of society as a whole. This is why, as a Good Corporate Citizen, Canon aims to contribute to the realization of a better society by engaging in sound and fair business activities. In addition, we realize that we have an increasingly important role to play in addressing complex social issues that include climate change, frequent natural disasters, poverty and inequality as expressed in the Sustainable Development Goals (SDGs) adopted by the United Nations.

Canon's sales companies in Asia abide by the basic CSR statement of the Canon Group. In addition, we draw on Group resources such as advanced technological capabilities, global business deployment expertise, and diverse, specialized human resources to engage in activities tailored to characteristics and issues specific to the Asian countries and regions we operate in. Besides reinvesting business profits into local communities, we are also committed to addressing social issues, as we believe such activities are essential to sustainable development. Canon Asia's social contribution activities are focused on education, community care, environment, and cultural improvement. In times of need, we provide humanitarian support to people facing harsh conditions and natural disasters. Under the umbrella message "Imaging for Good", we aim to do our part in creating a better and sustainable society with fair chances for all, creating and capturing smiles wherever we go.

Value Creation Process

The Canon Group commenced the five-year management plan – Phase VI of the Excellent Global Corporation Plan in 2021. With inheriting our corporate DNA that is based on the philosophy of Kyosei, Canon Hong Kong continues progressing with the plan by delivering various initiatives. We aim to help build a resilient and sustainable society that provides secure, safe, comfortable, and enriched lifestyles. We will contribute using technology, products, and solution-based services to create value in ways that help to achieve the SDGs and realize an emission-free future.

Sustainability Milestones – Kyosei in Canon Hong Kong

Echoes with our corporate philosophy “Kyosei” and leading image expertise. We forge ahead together, hand in hand with Hong Kong people for 50 years.

Sustainable Development Goals and Materiality Assessment | Our Sustainability Strategic Partner

Sustainable Development Goals

17 PARTNERSHIPS FOR THE GOALS

We truly understand that the Sustainable Development Goals (“SDGs”) are the fundamental cornerstone to identify the changes in societal trends and impact positively while continuing our business activities. Among these SDGs, Canon Hong Kong aligned with the materiality themes selected by the Canon Group in 2022 and integrated the SDGs that are closely related to our business activities in Hong Kong. Regarding our Group's stakeholder questionnaire survey in 2022, there is a higher expectation from our stakeholders in promoting good health, innovation, sustainable management in business operation, and action for climate change.

3 Materiality Themes in Canon Hong Kong

 Responding to People and Society as a Good Corporate Citizen	 Creating New Value and Solving Social Issues	 Protecting and Conserving the Environment
<ul style="list-style-type: none"> • Respect for basic human rights/ Prevention of discrimination and harassment • Appropriate wage and working hour management • Improving quality of repair / maintenance support, as well as the ability to effectively respond to customer inquiries • Improving quality of products and services and strengthening quality control • Utilizing business activities to contribute to social welfare • Support for nurturing the students and children who will lead the next generation 	<ul style="list-style-type: none"> • Advancing security technology to contribute to the safety and security of society • Development of products and technologies that lead to affluence and delight for people in the fields of photography and imaging 	<ul style="list-style-type: none"> • Promotion of energy conservation • Reuse and recycling of used product • Reduction of waste/ Prevention of water and soil pollution

Based on the result of the materiality assessment, Canon Hong Kong has identified the following initiatives which are most relevant to our Group's CSR management strategies and on the fulfillment of the SDGs goals:

3 GOOD HEALTH AND WELL-BEING 	Relevant Target	Our Initiatives and Achievements (Excerpt)
	 3.4 By 2030, reduce by one third premature mortality from non-communicable diseases through prevention and treatment and promote mental health and well-being.	<p>Canon Hong Kong has implemented the Occupational Health and Safety Management System to minimize the chances of injury or illness for our employees and stakeholders. Under the management system, we have executed several measures and policies to ensure a healthy and comfortable working environment for the employee, including dental care and critical illness insurance. Canon Hong Kong has also participated in the "Indoor Air Quality Certification Scheme" and received IAQ Certificates with "Good Class" level for 2 of our offices and Canon Image Square to reduce the chronic risks aggravated by indoor air pollution.</p> <p>We have introduced an Employee Assistance Programme to offer a range of activities, including wellness seminars and Care Express Hotline, to help employees cope with personal issues that may adversely affect their health, well-being and work performance.</p> <p>Professional counselling and consultation service are also provided to support employees and their immediate family to overcome the challenge.</p>

9 INDUSTRY, INNOVATION AND INFRASTRUCTURE

Relevant Target

9.4

Upgrade all industries and infrastructures for sustainability.

Our Initiatives and Achievements (Excerpt)

In 2018, Canon Hong Kong head office was relocated to a building with sustainable certifications, including BEAM Plus Final Gold Certification and the LEED Gold Award.

By providing digital printing services based on cyber-physical systems and contributing to digital transformation in office environments, Canon aims to help customers achieve more advanced, efficient operations.

Accredited as HKAEO since 2015 to demonstrate our qualified supply chain management, typically in security and safety.

Regularly conduct vendor assessments to review our service provider's environmental and social performance.

12 RESPONSIBLE CONSUMPTION AND PRODUCTION

Relevant Target

12.2

By 2030, achieve the sustainable management and efficient use of natural resources.

Our Initiatives and Achievements (Excerpt)

Canon Hong Kong has established an environmental management system ("EMS") as a mechanism for continually improving the ecological assurance activities in accordance with ISO 14001 and has obtained its certification since 2006.

12.4

Achieve environmentally sound management of chemicals and all waste throughout the product lifecycle, in accordance with agreed international frameworks, and significantly reduce their release to air, water, and soil.

We pursue the "Produce-Use-Recycle" approach to ensure our environmental sustainability, which entails managing products in ways that support a circular economy from design to End-of-Life (EoL). We have been providing extensive recycling programs for our customers and been actively supporting recycling programs organized by the community to reduce the landfill burden and increase resources efficiency through the product life cycle.

In 2022, Canon Hong Kong receives the First Edition of Excellence Awards for E-waste Recycling & Management 2022-Appreciation Award in recognition of our contribution to e-waste recycling and sustainable development. For instance, we offer our customers the free statutory regulated electrical equipment removal service through ALBA IWS, the licensed recycler in Hong Kong, for appropriate treatment and recycling of the regulated e-wastes.

12.5

By 2030, substantially reduce waste generation through prevention, reduction, recycling, and reuse.

Aside from the extensive recycling programs, we understand the waste generate on our operation is linked to our environment closely. Thus, a range of internal recycling schemes have been employed to reduce the volume of landfill waste, such as setting up recycling bins and organizing donation programs.

13 CLIMATE ACTION

Relevant Target

13.2

Integrate climate change measures into national policies, strategies, and planning.

Our Initiatives and Achievements (Excerpt)

Continuously enhance the energy efficiency in the head office by utilizing energy-saving initiatives.

Organizing Green Intelligence Office Tour to share our green practices and solutions, and to exchange the insights on being “Climate Ready” with our partners and clients.

Our Sustainability Strategic Partner

It is essential to have an ongoing dialogue with diverse stakeholders as an outlet to build mutual understanding. Canon Hong Kong strives to maintain close communication with stakeholders to communicate on Canon corporate philosophy through different engagement channels.

Throughout our sustainability journey, we have always upheld the philosophy of kyosei. We are proud to walk this journey with everyone around us, including our employees, suppliers, customers, local communities, NGOs, education institutions, etc.

We are delighted to have our consecutive strategic partnership with Riskory Consultancy Limited, a leading professional risk and ESG consultancy firm that shares our sustainability vision. Their enthusiastic team had comprehensive experience in providing ESG, carbon trading, green finance, and carbon neutrality event consultancy services to over 200 listed companies, covering businesses around the globe. Their expertise was also recognized by reputable organizations and institutions, such as the Hong Kong Institute of Public Accountants (“HKICPA”) and The Hong Kong Independent Non-Executive Director Association (“HKINEDA”).

Riskory's dedication to accomplishing sustainability in their business operation was awarded by Hong Kong Awards for Environmental Excellence (“HKAEE”) to recognize their effort in environmental management. Riskory's carbon reduction target has been approved by Science Based Targets initiative (“SBTi”), and it has competence in carbon trading with various international standards, including but not limited to the Clean Development Mechanism (“CDM”) of the United Nations, Verified Carbon Standard (“VCS”), and Gold Standard.

Canon Hong Kong continues to feed into the Group's global approach to sustainability by establishing partnerships with Riskory to pool our expertise and resources to create new values which coheres with the concept of sustainable development goals (“SDGs”) contributing to our community.

ONE CORPORATE SPIRIT DESIGNED TO ACHIEVE OUR VISION

To establish a solid corporate governance structure and continuously raise our corporate value, Canon Hong Kong believes improving management transparency and strengthening supervising management functions is essential. At the same time, our management and employee must have a sense of ethics and mission to achieve continuous corporate growth and development.

Self-Motivation

The San-ji Spirit

The foundation of Canon's guiding principles is The San-ji (Three Selves) Spirit, which have been inherited over generations since Canon was founded. The Three Selves include: self-motivation, self-management, and self-awareness. Canon Hong Kong incorporates The Three Selves into its operation and management system, ensuring our employees are aware of their responsibilities and perform their duties with a positive and forward-looking attitude.

CSR Basic Statement

The Canon Group recognizes the responsibilities of companies in a society, including product quality and safety, environmental conservation, compliance, information security, employee rights and labour management, and supply chain management. To demonstrate the Group's commitment to its corporate social responsibilities, the Canon Group CSR Basic Statement has been drafted and the Canon Group CSR Activity Policy was formulated accordingly.

The Canon Group CSR Basic Statement was drafted in accordance with our corporate philosophy of Kyosei and reiterates the Group's determination to live and work together for the common good. The statement includes our promises to provide safe and secure products, comply with laws and regulations, ensure information security, prevent corruption and bribery, and respect human rights etc.

The sustainability governance of Canon Hong Kong is guided by the Canon Group CSR Basic Statement and the Canon Group CSR Activity Policy with the aim to put into practice our core value of operating in harmony with the community and the environment.

CANON "San-Ji" Spirit

Ji-hatsu (Self-Motivation)

Take the initiative and be proactive in everything you do

Ji-chi (Self-Management)

Conduct yourself responsibly and be accountable for all of your actions

Ji-kaku (Self-Awareness)

Understand the situation you find yourself in and your role in that situation

Our commitment under the "San-Ji" Spirit:

- We must observe and act in accordance with all applicable laws and rules.
- We must always conduct ourselves in a fair, honest and ethical manner.

Canon

Compliance Test

Would your actions

- ☐ violate any laws or rules?
- ☐ leave you feeling guilty?
- ☐ disappoint your family, friends or co-workers?
- ☐ embarrass you if reported publicly in the news?
- ☐ cause trouble for the community?
- ☐ harm the Canon Brand?

When in doubt, always consult your superior or the designated department.

Canon Group Code of Conduct

Canon Hong Kong works to promote corporate ethics in accordance with the Canon Group Code of Conduct ("Code of Conduct"), to develop and regularly review our compliance system. Our executives and employees are obligated to comply with the management stance and standards listed on the Code of Conduct when performing their duties.

The Canon Group Code of Conduct

Management Stance	Code of Conduct for Executives and Employees
<ul style="list-style-type: none"> • Contribution to Society • Fair Business Activities 	<ul style="list-style-type: none"> • Compliance with Corporate Ethics and Laws • Management Assets and Property • Management of Information • Conflict of Interest / Separation of Personal and Company Matters • Maintenance and Improvement of Working Environment

CSR Management Structure of Canon Hong Kong

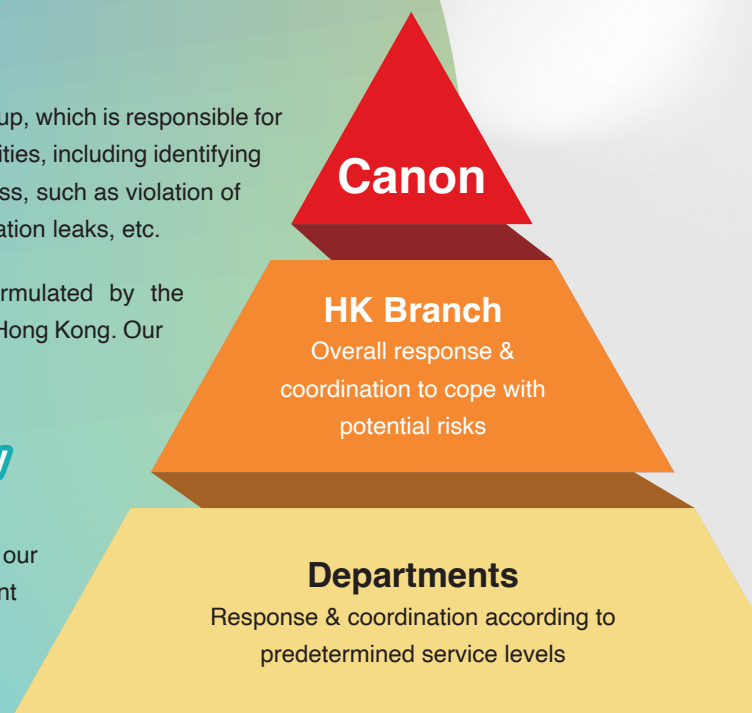

Risk Management

A Risk Management Committee has been established by Canon Group, which is responsible for developing measures to promote the Group's risk management activities, including identifying any significant risks that the Group may face in the course of business, such as violation of laws and regulations, environmental issues, quality issues or information leaks, etc.

An annual basic policy for risk management activities was formulated by the committee, which underpins the risk management system of Canon Hong Kong. Our business continuity management system consists of two parts.

Canon Hong Kong's Business Continuity Management System

The business continuity system of Canon Hong Kong ensures our effectiveness in coping with risks and driving sustainable development in business. All departments of Canon Hong Kong operate in line of this system and aim at achieving sustainability and continuity of our quality service and a high level of business resilience.

Quality, Environmental, Health and Safety (QEHS) Policy

In response to the outbreak of the COVID-19 pandemic, Canon Group has drawn up guidelines and devoted resources to limit the spread of infection and protect the health and safety of our employees, their family members, customers, and the community.

Acting as part of the effort to combat COVID-19, Canon Hong Kong has implemented the precautionary measures to ensure the health and safety for both employees and customers including but not limited to:

- Require all staff and visitors to wear a surgical mask for mutual protection;
- Provide hand sanitizers at all Canon Hong Kong offices, Canon Business Experience Center and Canon Image Square;
- Arrange remote working arrangement for our staff; and
- Our technical engineers will sanitize their hands and products during their pre and post-repair procedures to ensure all are disinfected before sending them back to customers.

Promoting Anti-fraud Culture and Zero Dishonesty (ZD)

Canon values a honest and fair working environment which is critical to business growth. Concept of Zero Dishonesty (ZD) has been widely recognized and promoted to every member of Canon. Canon Hong Kong promotes an anti-fraud and ZD culture in line with the Group's merits through developing clear tone at the top, anti-fraud messages and control training, and case reporting and declaration channels.

Clear Tone at the Top

The Canon Group CSR Basic Statement includes "Prevent corruption in all its forms including bribery," making clear to stakeholders, both internal and external, the management stance adopted by Canon on bribery and other forms of fraud and corruption. In addition, the Canon Group Code of Conduct clearly stipulates that Group executives and employees are prohibited from receiving benefits from business partners and corporate customers in the form of gifts or entertainment, etc., that exceed the social norm, and from providing similar benefits to government agencies, business partners and corporate customers. It also clearly prohibits actions that may cause conflicts of interest and insider dealing.

Canon Hong Kong management team recognizes the importance of ZD culture and ensures that our staff comply with all the relevant laws, the Canon Group CSR Basic Statement and the Canon Group Code of Conduct.

Anti-fraud Messages and Control Training

Compliance training enables our employees to understand rules and regulations that applicable to our daily operations. Apart from requiring our employees to adopt The San-ji Spirit culture, Canon Hong Kong has aligned with the Group to execute and promote compliance at all levels. All Group policies and related training materials are available for access on both online and intranet systems. Different types of training activities are also available to ensure our employees are knowledgeable about compliance and the ZD concepts of Canon.

Besides, in order to promote our Zero Dishonesty culture outside the company, ethics letter from Canon Hong Kong's President and CEO will be sent to suppliers and business partners on yearly basis to ensure their acknowledgement of Canon's guidelines for fair trade and ethical relationship.

Case Reporting and Declaration Channels

Canon Hong Kong has designed an online whistle blow channel, "ZD Helpline" for our employees and business partners to report misconduct to Canon management. Each case will be reviewed by a designated taskforce. We ensure that:

- All cases are strictly confidential;
- Identity of the reporter will be fully protected; and
- Any improper treatment to the reporter is strictly prohibited.

Necessary corrective measures will be taken based on the investigation results in order to prevent similar case to be happened again.

Employees are required to submit conflict of interest declaration every year. They can also file independent incident involving personal interest anytime on the company's declaration platform.

DELIGHTING YOU ALWAYS

To put our company's motto of "Delighting You Always" into practice, Canon Hong Kong is committed to going the extra mile to delight customers and staff by means of high-quality products and technical support, as well as excellent customer services. The motto drives our employees to surpass our current level of service and reminds us that customers will be delighted only through the continuous provision of innovative and extraordinary services.

Delighting our Customers from the Bottom of our Heart

Canon Hong Kong is dedicated to commit "Delighting You Always", we serve with "Heart" and make good use of intelligence and innovative technology to provide diversified and comprehensive solutions for different type of customers. We understand a close customer relationship underpins sustainable business growth. After understanding customers' needs, diversified activities have been launched

to create initiatives on the grounds. The activities serves as a platform bringing more information of our products while collecting instant feedbacks from the customers.

Seminar: Digital CX - Optimize Your Customer Journey

Canon Hong Kong joined the "Digital CX - Optimize Your Customer Journey" seminar organized by the Hong Kong Institute of Marketing (HKIM) and shared how enterprises could utilize customer communication management (CCM) solutions to improve customer experience and create more business opportunities.

Participants are experiencing how using intelligent technology in business establishes closer interaction with customers.

Continuous Optimization to Improve Operational Efficiency

Resource allocation is undoubtedly one of the keys for excellent customer service. To shorten the service time, every engineer is equipped with a customized mobile device to monitor the system status in real-time. It helps engineers to solve the potential problems proactively and efficiently. Meanwhile, we provide remote technical services for frequently asked questions. Hence, our engineers can focus on more complicated cases on-site that significantly shorten the waiting time of our customers for door-to-door repairing service.

Product Safety and Quality Management

Canon's basic quality concept is to ensure that customers have "no claim, no trouble". We work to maintain "Canon Quality" throughout all of our products and services. Based on this mindset, a Canon Quality Motto "Safety + Smartness + Satisfaction" was set forth to ensure our customers can use our products safely and with satisfaction.

The Canon Group CSR Basic Statement includes "Provide safe and secure products and services", demonstrating the Group's emphasis on product safety. Our own safety standards have been established for all Canon products, taking customer safety and legally stipulated product safety standards into account. The safety of ink, toner, and other consumables are assessed to raise customers' confidence when using our printers. Canon Hong Kong receives safety information, such as safety cautions from Canon Group when making repairs or exchanging parts and complies with the safety standards.

In the unlikely event that product quality issues arise, a framework for prompt response, including causal investigation, free repair and information disclosure, is in place. Canon Hong Kong will file reports to the respective quality assurance division which will then investigate the cause of issues and look into countermeasures. We also provide the Group-based tiered training to our employees to ensure our employees are capable to provide quality service.

Information Security Management System (ISMS) Policy

In accordance with "Ensure thoroughness in managing information, prevent information leaks, and protect personal information", from the Canon Group CSR Basic Statement, Canon Hong Kong is committed to preserving the confidentiality, integrity and availability of all the physical and electronic information assets to support our digital printing and scanning. Our Information Security Management System (ISMS) Policy is an enabling mechanism for information sharing, electronic operations, and reducing information-related risks to acceptable levels.

Privacy Policy

The privacy of customers is always protected at Canon Hong Kong, who complies with the requirements of Cap. 486 Personal Data (Privacy) Ordinance. All the personal data supplied by customers is retained in one or more of our databases in different formats and is secured with restricted access by our authorized personnel through appropriate security protocols for authentication and authorization.

We make promise to customers that we would implement appropriate technical and organizational measures for ensuring that only personal data which are necessary for each specific purpose of the operation is processed. The data protection impact assessment is implemented including the consideration of personal data's processing approach, purposes of obtaining those data, and risk assessments to individuals when processing the personal data.

Protection of Intellectual Property (IP) Rights

Canon has always been a research and development (R&D)-led company and has always respected intellectual property (IP) rights.

The Group conducts thorough searches of third-party patents at all stages to prevent use of IP held by others without permission. Canon Hong Kong is in line with the Basic Policy of IP Activities and ensures its business operations do not infringe the IP rights of others. Canon Hong Kong has shared information on spotting counterfeit Canon products on its company website (<https://hk.canon/en/campaign/anti-counterfeit>) to protect and educate customers of methods to distinguish genuine Canon products from counterfeit ones and the disadvantage of using counterfeit products.

Basic Policy of IP Activities

IP activities are vital to support business operations.

The fruits of R&D are products and IP.

Intellectual property rights of others should be respected and handled properly.

Supply Chain Management

Canon does not only monitor its own environmental and social risks, but also pays close attention to relevant risks when selecting suppliers and vendors. We have formulated the Procurement Policy and the Canon Supplier Code of Conduct, which is based on the Responsible Business Alliance (RBA) Code of Conduct, to ensure our procurement activities are socially and environmentally responsible.

Furthermore, Canon Hong Kong have been accredited as Hong Kong Authorized Economic Operator (HKAEO) (Tier 2) in the HKAEO Programme organized by the Customs and Excise Department (HKC&ED) since June 2015. The accreditation signifies that we have met pre-determined security standards in our international supply chain and we are recognized as a trusted partner of HKC&ED to jointly secure the global supply chain.

Eco-friendly Procurement

Canon Hong Kong is an environmentally friendly organization. We care about operating in a greener way and envision a green and sustainable future. In line with our company philosophy Kyosei, we manage our supply chain responsibly to provide our future generations with a better environment.

Canon Hong Kong's Procurement Policy and Principles

Open and Fair Competition

Quality

Safety

Information Security

Stated in Canon Hong Kong's Procurement Policy and Principles, environmental-friendly products or services would be on top of our list. Our Vendors are required to meet the statutory requirements with respect to environmental protection and other requirements which we have communicated to them.

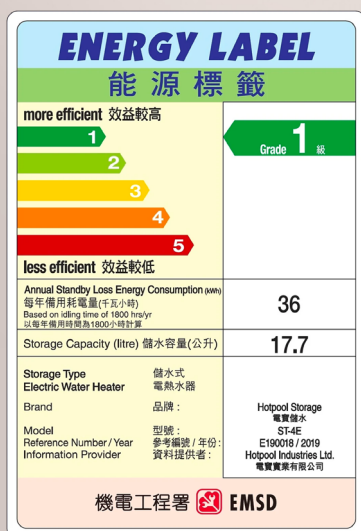

The mark of
responsible forestry
FSC™ C148225

To protect forests as carbon sinks and cradles of biodiversity, we have successfully acquired the Forest Stewardship Council™ (FSC™)'s Chain of Custody (CoC) Certificate. The CoC Certificate provides a credible assurance that products sold with an FSC claim originate from well-managed forests, controlled sources, or reclaimed materials. With CoC Certificate, our customers can rest assured that they are supporting sustainable management of forests when purchasing paper products.

Canon Hong Kong is committed to protect the environment. We care about how our external service providers help conserving the environment. All external service providers must comply with all applicable environmental laws & regulations. We have developed Environmental, Health and Safety Guidelines for External Service Providers which set out our minimum environmental standards on resource conservation, waste handling and treatment, etc. Our external service providers should review this guideline to ensure they meet the standards while working for Canon Hong Kong. Their ability to meet or exceed standards in the guideline will be taken into account when we make procurement decisions.

Green Procurement in Canon Hong Kong

Highlighted initiatives from our operations

Purchase of electrical appliances with Grade 1 Energy Efficiency Labeling

Applied the WWF sustainable seafood guide for selecting dishes in our corporate events

Use of recycled paper in premium such as the Company letterhead is made of recycled paper

Production of sales promotional items such as camera bags and stationery with emission reduction substances

COLLECTIVE ACTIONS FOR THE ENVIRONMENT

Based on our corporate philosophy of Kyosei, our approach to environmental assurance centers on maximizing resource efficiency to harmonize environmental economic activity. The Canon Group has established the vision of “Action for Green” under the foundation of the Canon Group Environmental Charter. With this vision in mind, Canon Hong Kong aims to achieve sustainable corporate growth through technological innovation and improved management efficiency throughout all our corporate activities.

Sound Environmental Management System

Canon Hong Kong has established an environmental management system (“EMS”) as a mechanism for continually improving the environmental assurance activities in accordance with ISO 14001 and obtained its certification since 2006. We apply the Plan-Do-Check-Act Model (“PDCA”) into our EMS. Evaluation is carried out for each environmental aspect to determine its significance, we will also consider whether the aspect is related to law, requirement of interested parties, and goals set up by the Canon Group. For reducing our potential negative impacts that are identified in the model, Canon Hong Kong will implement applicable control measures into our business operation. The QEHS Department is responsible for the implementation of both internal and external environmental programs, coordinating with our Corporate Communication Division based on the Canon Group Environmental Charter, Canon Environmental Vision, and the QEHS Policy respectively. We have standard operation procedures for handling non-compliance and an online system for managing and monitoring of non-compliance case.

Environmental Communication: A Proactive Engagement Approach for Stakeholders

Canon Hong Kong eagerly adopts a wide range of media and platforms to inform our stakeholders about the environmental activities closely related to us, including but not limited to the following channels:

- Canon Hong Kong CSR Report;
- Canon Hong Kong official webpage;
- Social Media such as Facebook, YouTube, and Instagram;
- Corporate Newsletter for our business partner;
- Environmental programs / campaigns; and
- Internal communication with our employee such as QEHS survey and working group meetings.

Environmental Education: Impacting Our Community and Future Generation

Environmental education helps to raise the public awareness and empower the stakeholders to take part in contributing the environmental conservation. Canon Hong Kong provides comprehensive environmental training program for all employees, some of the specialized trainings are given for specific types of work. We aspire to promote public education in the community. In 2009, Canon Hong Kong launched the Ink Cartridge Recycling Program and invited the famous cartoon character “McDull” as the program ambassador. We encourage all primary and secondary schools in Hong Kong to recycle used ink-jet printer cartridges and thus help to reduce the landfill waste. In the school year of 2022-2023, over 180 schools joined the Inter-School Ink Cartridge Competition and 19 environmental seminars were held.

GHGs Emissions: Contributing A Carbon-Neutral Community

To achieve the long-term goal of carbon neutrality, Canon Hong Kong is taking proactive actions, fully implementing environmental and carbon reduction measures in every aspect of the business. We have been conducting green office experience tours for business partners to share our green initiatives and intelligent solutions that can help companies improve work efficiency and productivity. Electricity consumption in offices and Canon Image Square is our major source of GHG emission. We are highly aware of such GHG emission would accelerate climate change. Hence, we adopt a series of measures to conserve energy, such as switching off the lights during office lunch hour, using energy-efficient electrical appliances, lighting sensors along the window sides and timer controllers, also appreciating of T5 Fluorescent Tube at the head office.

Type of Emissions	2021	2022
GHG Emissions	Tonnes CO ₂ e	
Scope 1 - Direct Emissions	15.36	15.22
Scope 2 - Indirect Emissions	262.95	252.02
Scope 3 - Other Indirect Emissions	0.52	0.48
Total	278.83	267.72
Intensity (Tonnes CO ₂ e/employee)	0.581	0.59

Scope 1: Vehicle fuel combustion, fugitive emission (refrigerant, fire extinguisher, propellant, etc.)

Scope 2: Electricity consumption

Scope 3: Paper consumption and recycling, fresh-water consumption and waste-water generation

Deployment of Integrated Solutions to Realize Resource and Energy Saving

Canon Hong Kong has adopted and utilized our total business solutions in our operation sites, such as Output Management System and Document Management Solution, to reduce carbon emission by reducing printing volume that indicates less power consumption.

Canon Hong Kong believes that by delivering a wide range of solutions, we can together continue contributing to reducing carbon emissions not only in our operation but also in the community as a whole. Thus, we have launched a series of “Total Imaging Solutions” to support our customers to accomplish the goal of sustainability.

Reduce Printing Volume

Reduce Paper Usage

Save Trees

Reduce CO₂ Emission

Reduce Power Consumption

Apart from reducing energy consumption through strategic planning and solutions integration, Canon Hong Kong also enhances the energy efficiency with the measures listed below:

Clear Light Zoning
Diagram

Utilize energy efficient
appliances, LED spot lights
and T5 fluorescent tubes

Temperature
Monitoring

Installed sensors along
the windows, auto

exceeding 650 lux and
during lunch hour

Water Conservation:

Our business does not require a significant amounts of water to operate. Thus, we did not produce a large amount of sewage during the Reporting Period. The water consumption in our daily operation would be office cleaning service, which is provided by the property management company. For this reason, we have no issues sourcing water that is fit for the purpose.

To conserve water resources as well as reduce the water demand, we implement measures such as:

- Display water saving tips next to taps and sinks;
- Installation of flow controller at the head office; and
- Installation of grease tanks in sink basins at pantries.

Resources Management: Promoting Circular Economy

Canon Hong Kong pursues the “Produce-Use-Recycle” approach to ensure our environmental sustainability, which entails managing products in ways that support a circular economy from design to end-of-life.

Canon Hong Kong has identified and considered the waste categories generated during the product life cycle, mainly regarded as the used machines, consumables, and the packaging materials such as multi-functional devices, toner bottles, foams, etc. Since then, we have launched various recycling programs to manage our end-of-life products which help to reduce the burden of landfills and consumption of natural resources for production.

Resources Recovery

Canon Hong Kong actively works to reduce the amount of waste originating from our operation process. Comprehensive recycling programs have been organized to reuse and/or recycling resources with our staff and customers:

All-rounded Recycling Programs in Canon Hong Kong

Product Categories	Our Recycling Programs / and Initiatives
 <p>Ink Cartridges</p>	<p>Ink Cartridge Recycling Program since 2009 with the following activities:</p> <ul style="list-style-type: none"> • Inter-school Ink Cartridge Recycling Competition • Establish over 300 Ink Cartridge Collection Boxes in Hong Kong
 <p>Toner Cartridges</p>	<p>Canon Group introduced Toner Cartridge Recycling Program since 1990. COMBATING CLIMATE CHANGE TOGETHER

The United Nations Climate Change Conference ("COP26") has stepped up the global action with significant progress on solving the climate crisis recently. It has successfully aroused the concern of people around the world regarding the growing impacts of climate change. Canon Hong Kong has taken solid action in combating climate change. We joined forces with our stakeholders to promote technology innovation and evaluate the climate resilience in our business operation.

Be Climate Ready

Sustainable
Development
Goals

13 CLIMATE
ACTION

Governance

In reference to the recommendations proposed by the Task Force on Climate-related Financial Disclosures (“TCFD”) of the Financial Stability Board, Canon Hong Kong has undertaken the following initiatives related to climate change as follows:

A comprehensive management approach is vital due to the inter-connectedness of environmental issues, particularly for climate change. Based on our Group's Global Environmental Promotion System, when an environment-related global problem arises, its impact on the Canon Group businesses will be assessed. The Global Environmental Center ("GEC") will report to the President & CEO and Executive Vice President and seek for approval on the direction in response to the associated risks, opportunities, and related measures to be taken. Canon Hong Kong has initiated and integrated the management mechanisms under the QEHS Policy. We can assess all potential risks inducing the occurrence of extreme weather for all operations and implementing appropriate response measures.

Strategy

Canon Hong Kong has identified the following risks and opportunities related climate change; we will be going to conduct a comprehensive risk assessment in the future to further build up climate resilience strategy.

Physical Risks

In short term, it is foreseen that the frequency of adverse climate activities such as typhoon and flooding in our operational sites will be increased gradually which may affect service efficiency and increase risks. Canon Hong Kong has utilized the online one-stop service to ensure our excellent service under this circumstance. Flexible working arrangements guideline has also formulated to our employees.

Transitional Risks

As the carbon neutrality goals of Mainland China and Hong Kong are expected to accelerate, our transition action may necessitate extensive policy and technologies to fulfill the stringent environmental regulations issued by the authorities. Financial risks include increasing the investment cost in research and development for legal compliance in long term. Furthermore, Canon Group has to stay ahead of both market and industry trends related to climate change so as to integrate low-carbon elements within our products.

Opportunities

Canon Group has taken the entire product lifecycle into account for carbon reduction when designing our product for office equipment, from the stage of raw material to customer use. Canon Hong Kong promotes various imaging and business solutions to improve operational efficiency, help the users conserve resources, and increase energy efficiency.

Canon Hong Kong has obtained ISO 14001 consolidated certification as an objective third-party evaluation of EMS effectiveness. The EMS implementation helps our company identify and mitigate new risks and opportunities related to climate change and further enhance our climate resilience under the management approach to environmental assurance.

Risk Management

Metrics and Targets

Based on appropriate disclosure, we will continue to utilize various proprietary Canon technologies and undertake initiatives to contribute directly and indirectly to achieving the global goal of net-zero CO₂ emissions by 2050. Our Group has broken down the overall (lifecycle) target into product and operational site targets. We have established a production target of an average 3% improvement per year in the raw materials and using CO₂ emissions improvement index per product. Canon Hong Kong has unit improvement indicators covering energy consumption, total waste generation, water usage, and emission of controlled chemical substances, which to monitor and manage regularly to contribute the overall target from our Group.

JOIN FORCES TO CARE FOR OUR PEOPLE AND SOCIETY

Kyosei is not only about the environment, but people are also an indispensable part of a harmonious community. Canon Hong Kong cares for people. As a matter of course, our team members, including our staff and employees in our supply chain are our most valuable assets. Our service quality, business development and continuity all depend on our people. Their health, welfare and satisfaction are always among our priorities. Other than our team, we recognize the importance of giving back to the society and offering help to those in need. Canon Hong Kong has always been active in organizing and participating in various community services, in hope of contributing to the harmony of our society.

Our Talent

Employees are the foundation of our sustainable business and values. We strive to ensure that our teams receive fair treatment and work in a comfortable environment. Guided by our principle - Familism, Canon Hong Kong highly prioritizes the diversity and inclusion of employees to strengthen trust and work together in a spirit of harmony. We promote the cultivation and development of talents by providing diverse learning and promotion opportunities for their career and professional development. In the meantime, we organise a wide range of wellness and staff-relations activities that encourage work-life balance and support our employees in maintaining a good balance of mental and physical health at work. By investing in the health and development of our team members, we anticipate them thriving and growing alongside our company.

Canon Hong Kong values the opinions of our employees by encouraging open communication that brings positive impacts. We provide two-way communication channels to collect feedback, such as employee satisfaction surveys, focus group meetings, reporting hotlines, CEO luncheons, etc. The consolidated feedback will then be communicated to related parties for addressing the feedback with appropriate approaches or actions for adjustment. What's more, the intranet tools "ifedback" and "ithanks" are available to share thoughts and gratitude towards colleagues' good work.

Canon Culture

Canon Hong Kong practices "Back to Basics" policies to boost our team's morale and team spirit. We emphasize on creating a friendly working environment where employees can unleash their potentials and creativity. Our team members are reminded of proper business behavior and conduct, to appreciate the work of teammates, and to be innovative and bring services to customers' delight. We have established the "President Awards", "Long Service Awards", "6S Awards" and "Devoted Volunteer Awards" and so on to recognise their remarkable contribution to the success of the organisation.

"6S Culture" is promoted at Canon Hong Kong in order to provide a good working environment which does not only allow employees to work comfortably, but also reduces work accidents and improves work efficiency. 6S represents six workplace organization methods:

		Global Leadership Training	Product Knowledge	
			Language Training	
Managerial	New Staff Orientation	Leadership Development Program	IT Training	External Seminars & Workshops
			Regional / Global Rolling Stone Program	Educational Subsidy
General		General/ Supervisory Training	Skills Upgrade Training	

Plentiful resources have been invested in providing training programs to employees at Canon Hong Kong. A two-way training mechanism is promoted, either through department head nomination or self-initiation, suitable on-the-job training will be offered by our Human Resources department. With the goal of enabling employees to access the professional knowhow in an interactive way, different kinds of workplace training programs are offered, including:

Classroom Learning

Company Visit

Dedicated Tutor Orientation

eLearning Course

Experiential Learning

Video Stimulation Trainings

Training topics include on-board orientation, supervision and leadership skills, mental health and interpersonal relationship, and regular courses.

External Education Subsidy is also provided to encourage our employees to attend different levels of courses ranging from Professional Certifications, Short Courses, Diplomas, Bachelor's to Master's Degrees run by external accredited institutions for their continuous development.

Tailor-designed Programs by Training Experts

Our trainers equip employees with the technical skills that can build resilience for the unpredictable commercial world with customized corporate training.

A variety of trainings are available for junior to executive level employees, from one-hour lunch time sharing session to a three-day executives training. Department heads and trainers can review the training roadmap to achieve individual growth objectives, thus cultivating a lifelong learning culture at Canon Hong Kong.

“Rolling Stone” Program

Canon Hong Kong encourages employees to make good use of the company’s vast international network to gain global perspective. Employees are given the opportunities to work in the US, Europe and Japan branches, which allows them to obtain more exposure and training, broaden the horizon for their work and promote personal career development. As a result, they can contribute diversified ways of thinking to Canon Hong Kong.

Service Meister Challenge

Canon Group organizes the Service Meister Challenge in Asia regularly, which is a technical skill competition designed to assess engineers’ behavioral troubleshooting abilities and an excellent opportunity for engineers to exchange valuable experience.

The Challenge is part of the talent management program that recognizes “the best of the best” service engineers to provide an opportunity and stage for outstanding engineers to share and challenge their technical knowledge, as well as to cultivate the best technical support culture in Canon for delivering an excellent customer service to our customer. Canon Hong Kong also organized a local “Service Meister Challenge” in 2022 to motivate our engineers to strive for excellence.

Engineers must keep up with times and continue to equip themselves in order to become an all-round engineer who is capable of responding to the digitalization of the business ecosystem, as well as coping with the latest digital technologies and innovative solutions. We offer a series of trainings to new engineers prior to their employment duty.

Canon Hong Kong has established Certified Engineer Program since 2017 to ensure the competence of our engineers. This program provides step-by-step training ranging from network to software support, fully meeting the needs of engineers. Cooperating with highly recognized professional certification courses in the market, the program increases the confidence of engineers and help them offer customers with comprehensive and efficient service. To enhance the professionalism of our engineers, we also provide the “Engineer Development Program” that includes overseas on-the-job training organized every year. The Program encourages our engineers to keep up on the latest trends and industry knowledge with an international perspective.

Comprehensive Compensation System

A performance-based compensation system for all levels of employees at Canon has been implemented, ranging from new hires to senior management. Employees' achievements, work-related processes and performance during the year are evaluated to determine annual remuneration. Individual achievements and company performance will be used as a distribution meter of bonus. We hope to motivate our employee to achieve goals with Canon Hong Kong as a team.

Health & Safety

The provision of a healthy, safe and comfortable environment for employees and customers has always been a prime objective for Canon Hong Kong. Since the early days of the 2000s, we have invested substantially in the implementation of Occupational Health & Safety Management System (OHSMS), aiming to minimize chances of injury or illness to employees and all other stakeholders, via a series of hazard identification and risk assessment works. And the effort did not go unnoticed, in 2005, Canon Hong Kong was awarded the OHSAS18001 OHSMS certificate, recognition on its effort in promoting OHS management.

In 2020, Canon Hong Kong succeeded in migrating its OHSMS to a new standard ISO45001:2018.

Risk Assessment

We conduct risk assessment for all operations to evaluate the risk level based on the probability of occurrence and consequences of each job hazard. According to the assessment results, preventive and control measures are implemented to minimize the risk of injury and illness. The risk assessment is reviewed regularly to address the dynamic nature of business.

Emergency Response Measures

Canon Hong Kong conducts different natures of emergency drills annually to test the appropriate emergency preparedness and response procedures, ensuring effective communication and handling of emergency situation. We also have qualified first aiders for assistance when needed.

Training and Seminars

Health and safety awareness trainings, such as manual handling, are provided to every staff, aiming at enhancing their knowledge and awareness towards health and safety risks in workplace.

A variety of seminars are also arranged regularly on topics related but not limited to healthy diet, physical health, mental well-being in order to show our care towards employees' health-related habits and mental health.

Our Employee Assistance Programme also offers a range of activities, including wellness seminars and Care Express Hotline, to help employees cope with personal issues that may adversely affect their job performance, health and well-being.

Professional counselling and consultation services are also provided to employees and their immediate families to support them to overcome the challenge.

Indoor Air Quality (IAQ) Assurance

To provide a healthy and comfortable working environment, we have voluntarily joined the “Indoor Air Quality Certification Scheme” organized by the Environmental Protection Department (EPD) since 2005. Canon Hong Kong received the IAQ Certificates with “Good Class” level for our Hung Hom head office, Wan Chai office and Canon Image Square in 2021.

Comprehensive Insurance Protection

As a caring company, Canon Hong Kong offers thorough insurance protection to our employees and their immediate families, including but not limited to dental care, life insurance, and medical insurance.

Work-Life Balance

Staff Recreation Club

Our Staff Recreation Club provides a wide range of recreational activities for our employees and their families, aiming to enhance their physical and mental health to achieve work-life balance and to increase the cohesiveness between our team and the community. We organize activities including:

Leisure Workshops

Turkish Mosaic Lamp Workshop

Our staff used colored glass shards to freely match and design a unique Turkish mosaic lamp with their creativity during the workshop.

Parent-child Traditional Chinese Lantern Workshop

Our SRC hosted a Parent-child Chinese Lantern Workshop to invite our staff and their children to make a lightweight traditional carambola lantern together.

Family-Friendly Employment Practices

Canon Hong Kong set up nursing rooms to support breastfeeding mothers at work. Full-paid maternity leave and paternity leaves are also provided, allowing our staff to take care of their own families.

Work Environment

Wellness facilities are available at our office for staff to take a break and recharge at work. Indoor spinning bikes make it easier for our employees to exercise at any time of the day. There are three private wellness rooms equipped with massage chairs or lounge chairs for relaxation.

Furthermore, Canon Hong Kong also organized the e-Cycling Experience Day for our employees to allow them to experience virtual reality cycling technology and to encourage them to improve their well-being.

Imaging for Good: Community Care

Following the corporate philosophy of Kyosei, we emphasize operating in harmony with the community and the environment. Conservation of biodiversity, supporting the building of a fair and caring society are as important as our own growth.

We show our care for the community through our imaging expertise by action. A wide range of CSR projects has been initiated under the theme “Imaging for Good”, including cultural heritage, environmental protection, education enlightenment, community care, humanitarian aid to bring positive energy to the society.

Corporate Volunteer Team

Established in 2015, Canon Hong Kong Corporate Volunteer Team is dedicated to corporate social responsibility. In 2022, the scale of volunteer services was inevitably affected to a certain extent due to the pandemic. However, our Corporate Volunteer Team has always been enthusiastic and passionate about contributing to the local community. A total of 51 corporate volunteers have served in 14 service programmes and contributed 302 service hours.

Corporate Volunteer Reward Scheme

Canon Hong Kong has initiated the Corporate Volunteer Reward Scheme in practice to encourage our employees to participate in different charitable activities, enhancing their cohesion with the environment and the society, also contributing to our communities.

Canon Hong Kong has honored with “Caring Company 15 Years Plus” logo for our continual commitment in the areas of “Caring for the Community”, “Caring for the Employees” and “Caring for the Environment” for 18 years consecutively.

Under the corporate CSR's theme “Imaging for Good”, there are three main focus areas: “Imaging for Green”, “Imaging for Care”, and “Imaging for Fun”. We utilize our expertise and resources to spread and pass on our passion for “Good”.

IMAGING FOR GOOD 影像公益

IMAGING FOR
GREEN

IMAGING FOR
CARE

IMAGING FOR
FUN

IMAGING FOR GREEN

Safeguarding Forests and Biodiversity

Canon Hong Kong supports green economy to take ecology and environment into consideration in its business decisions. We have acquired the FSC Chain of Custody (CoC) Certificate, which verifies that FSC-certified material has been identified and separated from ineligible and unacceptable material in the supply chain.

FSC-certified paper is harvested and produced in a responsible manner, which helps sustain forests for our future generations.

Canon also joined the ForestWeek organized by FSC to raise the public awareness of environmental protection and choosing sustainable sourced products.

We have launched the Ink Cartridge Recycling Program since 2009, having the famous cartoon character “McDull” as the campaign ambassador, to encourage the public to collect empty ink cartridges for recycling. As of December 2022, we have collected more than 252,000 pieces of ink cartridges.

Educating the Concept of Sustainability

Canon Hong Kong believes that the concept of sustainability has to be spread out in the community, especially to our next generation, encouraging them to adopt a low carbon lifestyle. We invited representative from Business Environment Council to give environmental seminars to primary and secondary school students on topics such as Ecological Impacts of Climate Change.

Furthermore, we strive to instill CSR concepts in our daily life and invited our staff to participate “Lai See Reuse and Recycle Program” to promote an eco-friendly lifestyle while enjoying the New Year Tradition. Over 6,050 pieces of red packets were collected in 2022 as the part of contribution in waste reduction.

Promoting Sustainable Office Operation

We have been developing office solutions for greener and more sustainable operations. Different kinds of Canon business solutions were showcased in the green intelligence office tours, which co-organized with environmental organizations to help small and medium enterprises to go green in the workplace. As of December 2022, we have organized 25 Green Intelligence Office Tour for 203 enterprises.

Protecting Local Habitats

In response to the appeal and spread the message of "Leave No Trace" & "Take Your Litter Home," Canon Hong Kong Corporate Volunteer Team joined the "Green Hero Challenge 2022," which was organized by The Green Earth to support the hiking trail clean up and assist in the large-scale countryside litter research in Hong Kong.

In 2022, the Team visited the Tsz Kwun Ancient Trail in Lion Rock Country Park and helped pick up about 12 kg of trash, including tissue paper and food packaging, along the hiking trail during the service. The Team is delighted to help restore nature's beauty together.

Our volunteers also joined hand to hand with World Wide Fund for Nature Hong Kong (WWF-HK), put up their hand gloves, and removed invasive exotic species, mikania manually, to protect biodiversity in Mai Po Nature Reserve.

Promoting Wildlife Photography

Wildlife photography captures the beauty of nature and spreads environmental conservation messages to the public. To let wildlife lovers be well-equipped and uplift their shooting skills, we invited professional wildlife photographer Mr. Samson So to launch the Canon Master Imaging Space professional workshop with practical outdoor experience to share his skills and knowledge in Nature Photography.

IMAGING FOR CARE

SEN Youth Development

Canon Hong Kong continues to support the "HKEdu SEN Youth Photography Program" Phase 2 and Phase 3 as an "Imaging Partner". We loaned Canon PowerShot digital cameras to students who have special education needs to practice their photography skills in the workshop. The program has arranged 21 photography workshops from January to November.

Supporting the Disabled and the Rehabilitated Persons

Canon Hong Kong continued to support as an "Imaging Partner" in the non-visual photography workshop called "Arts Connect Phase 2" and "Beyond Sight Phase 3" which were organized by Arts with the Disabled Association Hong Kong. We loaned the Canon EOS M series digital camera and supported the A3+ photo printing. Both project prompted visually impaired people to break away from the traditional conception that photography is a sight-led activity and create photography works with sensory perceptions beyond visual sight.

We also offered camera support for the "Zen Photography" Course at Sha Tsui Correctional Institution. The photography course does not only cultivate the photography interest of the young inmates but also help them express their feelings and emotion through the art therapy.

Donations to Support Local Community in the Combat against COVID-19

As a socially responsible corporate citizen in Hong Kong, we launched the one-off special collection & donation program to give hands to the underprivileged whose lives have been heavily affected by the Omicron-fueled fifth wave. Our staff have also supported through an internal fund-raising campaign on top of the company donation. Through Hong Kong's first city-wide crowd donation platform, "SHARE FOR GOOD", which the New World Development initiates, Canon Hong Kong donated adult face masks and rapid antigen tests to Hong Kong Family Welfare Society and Mission to New Arrivals respectively for distribution to those in need.

Humanitarian Aid for the People in Need

Canon Hong Kong organizes Blood Donation Day 2 times a year. We encourage eligible colleagues to be regular donors to sustain an adequate blood supply for the people in need. In 2022, 58 packs of blood have been successfully donated to the Hong Kong Cross Blood Transfusion Service.

Food Donation for the Underprivileged

Canon Hong Kong organized Lunar New Year Food Donation Program during the Lunar New Year. With the generous support from colleagues, over 370 packs of food have been collected for donation to Kindness Centre from St. James' Settlement to help people in need.

Canon Hong Kong's Corporate Volunteer Team visited two social enterprise restaurants - the "Dignity Kitchen" and "Ginkgo House" - to help prepare and distribute 400 hot meals to the needy in the old community of Mong Kok and Yau Ma Tei District for free during the Mid-Autumn Festival in 2022.

Fund-raising for People in Need

Canon Hong Kong has supported numerous charity activities organized by local charity organizations. Our colleagues supported and raised funds for ORBIS World Sight Day for 18 consecutive years and The Community Chest Love Teeth Day for 13 consecutive years.

INDEPENDENT PRACTITIONER'S ASSURANCE REPORT (ABBREVIATED)

To the directors of Canon Hongkong Company Limited

Riskory Consultancy Limited ("we") was commissioned by Canon Hongkong Company Limited (the "Company") to provide independent assurance of selected sustainability information within the Company's Corporate Social Responsibility Report for the year ended 31 December 2022, against the assurance criteria below to a limited level of assurance, in accordance with ISAE 3000 (Revised). This report is an abbreviated version of the full report, which is available upon request.

Our assurance engagement covered the evaluation of the accuracy and reliability of data for selected environmental indicators (the "Selected Sustainability Information"), (i) scope 1 and (ii) scope 2 greenhouse gas emissions; and (iii) intensity of electricity consumption. Our assurance was with respect to the year ended 31 December 2022 information only and we have not performed any procedures with respect to earlier periods and therefore, do not express any conclusion thereon.

The Company's Responsibility for the Selected Sustainability Information

The Company is responsible for the preparation of the Selected Sustainability Information in accordance with the criteria stated above. The responsibility includes the design, implementation and maintenance of internal control relevant to the preparation of the information that is free from material misstatement, whether due to fraud or error.

Our Independence and Quality Control

We have complied with the independence and other ethical requirements of the Code of Ethics for Professional Accountants issued by the International Ethics Standards Board for Accountants. Our firm applies International Standard on Quality Control 1 ("ISQC 1") and accordingly maintains a comprehensive system of quality control.

Our Responsibility

The following procedures were undertaken as part of the evidence gathering process for this assurance engagement:

- Interviewed the key persons responsible for the Selected Sustainability Information;
- Understood the process for collecting and reporting the Selected Sustainability Information;
- Sampled datasets and traced activity data back to aggregated levels; and
- Considered the disclosure and presentation of the Selected Sustainability Information.

The procedures performed in a limited assurance engagement vary in nature and timing from, and are less in extent than, a reasonable assurance engagement. Consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had we performed a reasonable assurance engagement.

Limited Assurance Conclusion

Based on the procedures we have performed and the evidence we have obtained, nothing has come to our attention that causes us to believe that the Company's Selected Sustainability Information for the year ended 31 December 2022 is not prepared, in all material aspects, in accordance with the criteria stated above.

Our report has been prepared for and only for the directors of Canon Hongkong Company Limited and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the content of this report.
